

 **17-19 JUNE 2025** **Abidjan, IVORY COAST**

ATLM Expo Announces the Inaugural International Power, Electricity and Technologies Exhibition in Abidjan — A Premier Event in Africa's Energy Sector

ATLM Expo is excited to announce the launch of the inaugural **International Power, Electricity and Technologies Exhibition in Abidjan**, Ivory Coast. This premier event, supported by the esteemed **Ministries of Energy and Commerce** (Ministère des Mines, du Pétrole et de l'Énergie & Ministère du Commerce et de l'Industrie), will serve as a pivotal platform for industry leaders, innovators, and suppliers to showcase the latest advancements in the power and energy sectors.

Co-located with the **Build, HVAC R & Water Expo**, this exhibition will provide an unparalleled opportunity for professionals to explore groundbreaking technologies across power generation, distribution, and renewable energy. As one of the foremost industry events in West Africa, **The International Power, Electricity and Technologies Exhibition** will offer a unique platform for businesses to connect, explore new opportunities, and showcase the latest technological advancements in construction and infrastructure. This event offers, for the decision-makers from **Europe, Asia, the Middle East, and Africa**, unparalleled opportunity to expand their networks, gain insights into the evolving trends, and position themselves at the forefront of Ivory Coast's rapidly developing industries.

This high-profile exhibition will serve as a hub for international collaboration, enabling attendees to engage with global experts, forge strategic partnerships, and discover transformative solutions shaping the future of construction. The exhibition will feature a **Hosted Buyer Program**, designed specifically for senior decision-makers and business leaders. This exclusive program will connect high-level producers from **China, India, Turkey, and the Gulf Region** with **West African countries**, enabling them to engage in tailored business meetings and form strategic partnerships that will drive growth and innovation in the region.

Supported by the relevant ministries, this exhibition marks a significant milestone for Ivory Coast's growing energy market. It offers businesses a unique opportunity to position themselves as key players in the country's rapidly expanding energy and infrastructure sectors. The exhibition promises to be a critical catalyst for fostering innovation, growth, and investment, further solidifying Ivory Coast as one of Africa's most dynamic economies.

After a remarkable year in 2024, we are now channeling our efforts towards Ivory Coast—West Africa's **fastest-growing economy** with a population of over 30 million. As the **region's economic hub**, Ivory Coast offers immense potential, especially with the newly inaugurated and the **biggest and the most modern center** of West Africa **Abidjan Exhibition Centre (Parc des Expositions d'Abidjan)**, a state-of-the-art venue opened in 2023 by the President of Ivory Coast. This exceptional facility will ensure our exhibitions stand out as unrivalled events in their respective industries.
